STEEL TRUST IN LINE.

Wages Increase in Wages Beginning May 1 Next.

New York, Nov. 24.—E. H. Gary of board of directors of the United States Steel corporation announced that the wages of common labor in plants of the subsidiary companies of the United States Steel corporation will be increased 10 cents a day beginning May 1 next. The wages of skilled and turn labor will be adjusted accordingly.

HEARING IN DULUTH

COMMERCE COMMISSION INVESTIGATES GRAIN COMPLAINTS AT HEAD OF LAKES.

MANY WITNESSES ON STAND

NORTH DAKOTANS ALLEGE INJUSTICE TO SHIPPERS BY THE ELEVATORS.

Duluth, Nov. 24.—The complaints of Superior elevator men against the Duluth board of trade and the alleged discrimination by Superior and Duluth elevators against North Dakota grain shippers were aired before the interstate commerce commission during the day. The commission, with Charles A. Prouty presiding, concluded an investigation of grain conditions at the Head of the Lakes in the federal building.

Much talk was indulged in by Duluth and Superior grain men in continuation of their fight on the inspection question, but apparently the matter is now in the same shape as it has been since the law went into effect.

Homier T. Fowler, E. Schwedler and Senator George B. Hudnall, all of Superior, occupied the stand during the greater part of the session. They alleged that the Superior board of trade could not do business with the Duluth board and also went into the charges against the elevators and inspection department.

George B. Barnum of Duluth, who followed Mr. Fowler on the stand, emphatically declared that the statement that Duluth men would transact no business with Superior men

Was Unqualifiedly False.

He said that Duluth men would do business with any Superior man who was financially responsible.

Mr. Fowler declared on the stand that he was practically forced out of business about a year ago. He declared that it was almost impossible for him to get business any longer. He said that he believed that elevator men and buyers meet in a corner of the Duluth board of trade and fix prices and they all agree to pay the same price.

According to Mr. Fowler if a Superior man opposes the Duluth board he gets boycotted. In answer to Commissioner Prouty's question Mr. Fowler said that the agitation for Minnesota inspection was started at the beginning of the shipping season and that was the reason there might have been more requests for Minnesota inspection.

W. C. MacFadden of Fargo, N. D., read a report of an investigation made by a committee appointed by the North Dakota Bankers' association. It stated that after the grain is

Received at Terminal Elevators

it is elevated to the top of the houses, where it is weighed. Then comes the blow that the bankers' committee says is an injustice to the shipper.

"During the process of elevating," says the report, "all the grain is subjected to a suction draft. This is an injustice to the shipper as, in our judgment, all grain should be weighed immediately upon being unloaded and nothing should be taken from it before it is weighed."

A. D. Thompson of Duluth testified that the statement that Eastern millers were dissatisfied with the grade of wheat obtained from Superior houses was false, that he had received in the course of the past three months letters from a great many of them in which they stated their satisfaction with the manner in which they were being treated by firms at the Head of the Lakes. He also declared that business at Superior could not be conducted in a fairer manner to shippers, not only of North Dakota, but also of other states, than it is being conducted now.

ROWBOAT IN EVIDENCE.

Dramatic Incident in Murder Trial at Herkimer, N. Y.

Herkimer, N. Y., Nov. 24.—The rowboat in which Chester Gillette and Grace Brown ventured upon Big Moose lake last July, the girl never to return alive, was the most important and interesting evidence introduced against Gillette at his trial here on the charge of murder. Clinging to the cleats in the bottom of the boat at the stern and twining about the braces which hold the rear seat in place were a score of strands of long, dark hair. The man who found the boat floating bottom up on the lake testified that he had removed enough hair from the cleats and braces to make a lock the size of a lead pencil.

Then followed a dramatic sequel. The prosecutor called to the stand Frances Brown, sister of the dead girl. She brought with her a lock of hair cut from her sister's head after her body was brought home. It was identified, placed in evidence and attached to a piece of paper, side by side with the hair taken from the bottom of the boat. Then the paper was passed to the jury to make their own comparisons.

District Attorney Ward contended that the girl was struck down in the boat and that her hair became entangled in the cleats and braces when she fell. Then, Mr. Ward stated in his opening address, the hair pulled out when the body was picked up and thrown overboard.

LANDS IN NEW YORK.

Mayor Schmitz of San Francisco Denies All Charges.

New York, Nov. 24.—Mayor Schmitz of San Francisco, who arrived here during the day on the steamship Patricia, said there was absolutely no truth in the charges made against him, and that he will go to San Francisco and court the fullest inquiry. No attempt was made to arrest Mr. Schmitz when he came ashore from the steamer. An automobile was waiting for him and he entered it and left the dock at once.

As Mayor and Mrs. Schmitz left the Patricia and walked down the gang plank they were met by several friends who rushed to shake hands with them, and some of them threw their arms around the mayor and patted him on the back, telling him to be brave and he would come out on top.

Mayor Schmitz seemed to be little concerned over his indictment. Coming up the bay on the steamer he chatted freely about the case. He said he had not anticipated that he would be indicted, but he said he could without fear face his accusers.

ROBBERS SLAY TWO MEN.

Hotel Clerk and Actor Killed by Texas Holdup Men.

Arkansas City, Tex., Nov. 24.—Two masked men in an attempt to hold up the St. Charles hotel here shot and instantly killed William M. Goff, the night clerk, and wounded S. A. Halpin, an actor, so badly that he died a few hours later. The robbers made good their escape.

WILL BE NO STRIKE

FALL RIVER (MASS.) COTTON MILL OPERATIVES GET TEN PER CENT INCREASE.

OTHER TOWNS WILL BENEFIT

GENERAL RAISE IN WAGES FOR THE ENTIRE INDUSTRY IS TO BE GRANTED.

Boston, Nov. 24.—According to advices received from cotton mill centers in Southern New England an advance of 10 per cent in wages granted by the Fall River manufacturers to their 30,000 employees will affect nearly 100,000 operatives in Southeastern Massachusetts, Rhode Island, Eastern Connecticut and in several towns in other sections. It is not expected, however, that the rise will amount to 10 per cent except in Fall River and several print cloth mill villages.

The New Bedford cloth mills employ 13,000 hands and the yarn mills 4,000.

The leading manufacturers of Rhode Island, who have offices in Providence, say that they will meet whatever advance is given by the New Bedford mill owners. An advance in Rhode Island will affect 20,000 hands and in addition will benefit 15,000 operatives in Eastern Connecticut mills controlled by Providence mill officers and about 5,000 persons in Rhode Island.

CREATES LONG DISCUSSION.

Resolution to Put the Associated Press on Unfair List.

Minneapolis, Nov. 24.—The convention of the American Federation of Labor had under consideration a resolution introduced by Daniel L. Russell of the Commercial Telegraphers' union of North America asking that the Associated Press be "denounced" for "unjust treatment of its telegraphers" and that the executive council of the American Federation of Labor "consider the advisability of placing the Associated Press on the unfair list."

After more than an hour's discussion the convention voted favorably on the following recommendation:

"That unless the executive council can bring about an amicable understanding between the Associated Press and the Commercial Telegraphers' union of North America the executive council shall, after full and impartial investigation, consider the advisability of placing the Associated Press upon the unfair list."

Other business transacted by the convention was the settlement of the old fight as to jurisdiction between the brewery workers, engineers, firemen and teamsters by allowing each organization to establish itself under a separate charter.

The convention refused to adopt a resolution introduced by Victor L. Berger of Milwaukee instructing all affiliated bodies "to hold absolutely aloof from any connection with the militia."

RIOTING AT HAMILTON.

Canadian Town the Scene of Street Car Strike.

Hamilton, Ont., Nov. 24.—An attempt by the Hamilton street railway to start their cars led to riotous scenes which the police were powerless to quell. The mayor appealed for troops and at midnight word was received from Toronto that 100 regulars were on the way to this city.

The strike began Nov. 1. Strikebreakers were brought to the city on Nov. 12 and an attempt was made to resume the service. The strikers and their sympathizers smashed the cars and frightened the strikebreakers out of town.

A determined effort was made again during the day to resume the service on the principal streets and rioting began immediately. A large crowd smashed the windows of several cars.

The mob gradually dispersed at midnight, when the report of the departure of soldiers from Toronto became known.

AUTOMOBILE STRIKES CAB.

Crowd Chases and Captures Driver of Machine.

New York, Nov. 24.—An automobile driven by Earl Wanzler ran down a cab, probably fatally injuring Nicholas Sullivan, the driver. The car, which also contained two women, dashed away after the accident, but was caught in a pocket of street cars and the chauffeur arrested. During the pursuit, in which a crowd participated, a pistol shot was fired and William Doran, one of the pursuers, dropped by a bullet in his neck. Wanzler was charged with the shooting, which he denied.

CARUSO FOUND GUILTY.

Italian Singer Convicted and Fined for Insulting Women.

New York, Nov. 24.—Enrico Caruso, the famous grand opera tenor, was found guilty during the day of having annoyed women at the zoological garden in Central park. He was fined \$10 by Magistrate Baker.

Caruso's counsel immediately announced that they would appeal. The appeal will take the form of a writ of certiorari, directing a review of the case by the court of special session.

Convicted Under Shanghai Law.

Norfolk, Va., Nov. 24.—Captain Andrew Crockett of the Chesapeake bay oyster schooner dredge James A. Whitling, indicted under the federal "shanghai" law, has been found guilty and sentenced to pay a fine of \$500 by Dec. 1 or serve six months in jail.

Killed by Street Car.

Los Angeles, Cal., Nov. 24.—Judge A. E. Cowles, a former circuit judge of Michigan and a resident of Lansing, was instantly killed by the wheels of an eastbound West Adams street car at the corner of La Salle street. He arrived here two months ago on a visit to his daughter.

TRAVELING BY RAIL.

Commander Peary and Party Leave Sydney, N. S.

Sydney, N. S., Nov. 24.—Commander Robert E. Peary of the Arctic steamer Roosevelt and party have left by rail for New York. They may stop for a day or two en route at Portland, Me. The Roosevelt will undergo temporary repairs here, a new crew will be signed and the steamer will sail next Tuesday for New York. Among the many messages of congratulations received by the explorer nearly every prominent scientific society in the world is represented.

JACOBSON will give thanks next Thursday that he was not nominated for Governor in 1906.

GET that ice and snow off the sidewalk before some one breaks a limb and sues you for a few thousand.

A MACHINE to count money has been invented—cash subscriptions will still be received at this office and counted by hand.

Just think of it, the big circuses will discard the horses for automobiles next season. Whether the machines will be ridden bare-back in the ring is not stated by the news item.

The new secretary of state has announced that he will dispense with the services of the veteran deputy of that office, J. J. Lomen, when he takes his seat January 1st. Mr. Lomen's many friends throughout the state will regret to see him displaced but it is one of the "fortunes of war."

The new code of Minnesota leaves out Thanksgiving day, by accident of course, but the error will be corrected by the next legislature. In the meantime Mississippi might lend one of their Thanksgiving days, the code of that state having given them one on the fourth Tuesday and the president one on the 29th of the present month.

SOME political writer says that in 1908 "it will have to be Jacobson or a democrat again." The fellow who makes that assertion is paving the way for trouble, evidently not having had his fill. The people don't relish being told they must vote for a certain man no matter who he is, and while it may be Jacobson this idea that "it must be Jacobson" would be a disastrous campaign slogan.

MINNEAPOLIS, like all other river towns in this section, is beginning to see the end of her great lumber mills, the announcement having been made by the Shevlin-Carpenter Co. that their mill will be closed next summer owing to the fact that they have no more logs to saw. The mill has been in operation for over twenty years and has cut more than a billion feet of logs.

The democrats are after Game Warden Fullerton's scalp and are making an effort to show the governor that the proper thing to do would be to give the office to one of the untiered. The governor may be from Missouri, and then again he may feel so secure in his position—the people having gotten the Johnson habit so firmly attached—that he will give all the appointive offices to his democratic friends this time.

The speakership contest has reached the district stage and favorite sons are being considered. The Eighth district has unanimously endorsed the candidacy of N. F. Hugo, of Duluth, and on Tuesday the house members of the Sixth district will caucus at St. Cloud and consider the claims of J. R. Howard, of Sauk Center, who aspires to the position of presiding officer of the house of representatives of the next Minnesota legislature.

A PECULIAR working of the primary election law is reported from Moorhead where John Bayer defeated a man by the name of Whaley for the republican nomination for sheriff. This, under the law, prevented Whaley becoming an independent candidate on the petition of the voters and having his name printed on the ticket. He, however, got busy and his friends wrote his name on the ballot and he was elected by a bare majority, and the intent of the law defeated.

IN THE WHEELHOUSE.

It Is There That All the Forces of a Great Vessel Are Directed.

On entering the wheelhouse of an ocean liner a landsman is likely to be awed by the group of instruments and masses of complicated machinery on every hand. Your eye will first be caught by the wheel or wheels, for often there are two or more of them, one directly in line with the other. The first of these is an insignificant looking affair perhaps a foot or so in diameter, which seems out of all proportion to the work it must accomplish. Directly in front of it stands the ship's compass, while back of it are massed many complicated wheels and levers which transform the slightest motion of the wheel into the great force which guides the ship.

All the great steamers are steered nowadays by the aid of steam or electricity. In the old days half a dozen men at times would struggle with the wheel in high seas, and sailors have been killed by the rapid revolving of the projecting spoke handles. The modern steering gear makes it possible to guide these great ships with the slightest pressure. The rudder, weighing many tons, is perhaps 500 feet astern, yet with a touch of the polished wheel the great 700 foot ship will swing from side to side with almost the delicacy of a compass needle. The wheel that the steersman operates merely governs the steering engine, which, in turn, moves the great rudder.

The most astonishing thing about the bridge is to find the wheelhouse with all its curtains tightly drawn, as often happens, and the men at the helm steering the boat without seeing ahead at all. At night or even by day if the light of the blinacle is confusing the wheelhouse is often completely shut in. The man at the wheel, it is explained, does not need to look ahead. The lookout high up in the "crow's nest" and the officer on watch on the bridge will keep him informed if any object is sighted. The duty of the man at the wheel is to keep the ship on her course. Throughout his watch of four hours he must keep his eyes on the compass and nowhere else.

On one side of the wheelhouse are posted the sailing directions, which give the wheelsman explicit orders. The course to be followed for the day is placed in a neat little rack called the compass control. It suggests the rack in church at the side of the pulpit which announces the number of the hymns and psalms for the day's service. The compass control will announce, for instance, N. 7, S. W. or some such formula. The wheelsman glances at this as he takes his watch at the wheel and holds the great ship exactly on this course until he is relieved.—Francis Arnold Collins in St. Nicholas.

H. H. Baker Purchases Lots at Corner of Seventh and Maple Streets

FOR BUSINESS PURPOSES

Expects also to Replace Imgrund Building With a Brick Structure Soon

Alderman H. H. Baker has faith in Brainerd and evidences it by his works as well as his words. He has just completed a brick addition to his block at the corner of Sixth and Maple streets. He recently purchased the lots at the corner of Seventh and Maple, lying just a block east of the postoffice site, facing north and west. Mr. Baker says that he believes this will be a good business location and will build a business block thereon as soon as he thinks conditions will warrant. He also expects to build a brick store building on the lots just north of his meat market where the wooden building occupied by John T. Imgrund now stands. Mr. Baker believes that prospects in Brainerd were never better, if they were as good, as they are today.

LAI D OUT ALL NIGHT

Tom Buchit got Lost While Hunting Last Week and Lay Out in Hay Stack all Night

A party of hunters, including some Brainerd nimrods, were up in the Cross Lake country last week hunting and were camped on the edge of a meadow. Near the tent was a small hay stack and on rising early last Saturday morning after an all night snow storm, one of the party noticed the stack moving and pretty soon a figure emerged and staggered toward the tent jabbering French. It proved to be Tom Buchit, a relative of Wm. Buchit, who is under arrest for the shooting of Louis Kling. Buchit had been hunting when the storm came up Friday and lost his way. He wandered around till after dark when he struck the haystack and crawled in, spending the night there when there was a tent within a very few yards. His clothes were wet and freezing and he was in a bad way generally. The hunters took him in and fed and warmed him and dried his clothes and sent him on his way rejoicing.

A Year of Blood

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood, which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured. Guaranteed for sore lungs, coughs and colds, at H. P. Dunn & Co.'s drug store. Price 50c and \$1. Trial bottle free.

ENGINEERS

BEGIN WORK

Another Report of Activity on The Upper End of M. & I. Railroad

THE LINE TO BE CHANGED

The Town of Little Forks is to Be on the New Line to International Falls

Big Fall, Minn., Nov. 24.—Again the report that the Minnesota & International is to be extended to the Canadian border within the next six months, so often officially denied, received circumstantial corroboration. George Huss has arrived here with a party of engineers and has established a camp at Bear river. From that point his men are to operate, locating a permanent survey to Little Fork.

The old Minnesota & International survey will be followed to Bear creek, but from there a new line will be established. The contractor to whom the work of grading has been let, has been over the line and says the work of clearing the right of way will be pushed. The Huss party have been over the line to International Falls and the new survey is to take the extension through the village of Little Fork, which was ignored in making the first line.

It is said that the Little Fork town site people gave the Backus & Brooks people, who are behind the extension, 51 per cent of their holdings in order to secure the road. It is reported from International Falls that a contract for the construction of the extension to that place has been let and that work will begin within a short time.

NAME IS ANDERSON

Identity of Man who was Wandering the Streets Insane is Carl Hjalmer Anderson

The unknown man who was picked up wandering the streets apparently insane some days ago was taken to the county jail from the Sisters' hospital yesterday. He is a Swede and talked more rationally and intelligently in his own language than in English. Sheriff Erickson has learned that his name is Carl Hjalmer Anderson and he claims to have come from Duluth last June and been working on the railroad at Muskoda and Detroit most of the time since. He is being held waiting the reply from a letter to a brother who he says resides in Duluth. Judge Sanborn has also written the board of control as to the liability of this county if he is sent from here to Fergus Falls.

AS RESULT OF FRICTION.

Canada Files Notice of Abrogation of Postal Convention.

Washington, Nov. 24.—As the result of friction over the publishers' privileges in the two countries, the Canadian government has notified this government that the postal convention between the two countries will be abrogated on May 7 next. The notice is accompanied by a statement that it is only insofar as it relates to second-class matter that this action is desired to extend and that if by legislation or departmental action new regulations are framed for the guidance of the United States postoffice department regarding second-class matter Canada will be prepared to enter upon negotiations for another convention relating to this class of matter.

Under the convention as amended in 1904 Canada has given notice from time to time of the exclusion from its mails of quite a number of periodicals published in the United States except at higher rates of postage, while the United States has found it unnecessary to take such action as to Canadian publications except in one or two cases.

AMUSEMENTS

The dramatic reading of MacBeth, by Geo. Bently Bergren, professor of literature and expression in the state normal school at Superior, Wisconsin, which will be given at the Presbyterian church Tuesday evening, November 27, will be one of the greatest dramatic treats of the season. RAILROAD NEWS

Items of Interest Regarding Railroads and Railroad Employees

Engine 1407 left the tracks just in front of the Brainerd depot this morning. A switch broke, letting the engine take one track while the tender took another. The accident occurred about five o'clock this morning and the engine was gotten on again about 8.

Engine 953 was towed in today and went to the shops with her tender on a box car. She had evidently been lying in the snow on her side somewhere.

Had Too Much Business

The Royalton Banner has the following to say of a former resident of this county who has recently moved back to that city:

Mr. and Mrs. J. F. Doble, who have been conducting a store at Klondike, Crow Wing county came down from that place last week to stay. They have sold out, their store property and will make Royalton their home in the future. Mr. and Mrs. Doble are among Royalton's old settlers and it will seem like old times to have them back again. They had a good business at Klondike, in fact it was too good a business—there was too much to do. With the store, post office and practically a hotel which they kept they had more work than they could tend to and were forced to let it go.

Made Happy for Life

Great happiness came to the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles affected a complete cure." Quick, sure cure for nervous complaints, general debility, female weakness, impoverished blood and malaria. Guaranteed at H. P. Dunn & Co.'s drug store. Price 50c.

Little Falls Authorities Censured

Little Falls, Minn., Nov. 23.—Dr. H. M. Bracken, of the state board of health has written a letter to the chairman of the local board censuring the city authorities for the way in which the diphtheria case in the Lathen family was handled. He finds fault because a doctor was not called earlier, and especially with the course taken by the city in not furnishing anti-toxin to check the disease. He reproaches the city with carelessness and indifference when a human life was at stake.

Going After "Deadheads"

Stillwater, Minn., Nov. 23.—The St. Croix Log Lifting company will this winter build barges and make ready its apparatus for an active campaign in the spring and summer. Millions of feet of pine logs are resting on the bottom of the St. Croix, and it is proposed to save them. The company will have headquarters in this city.

Had a Close Call

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stickel, of Miletus, W. Va. "Persistent use of the salve completely cured it." Cures cuts, burns and injuries. 25c at H. P. Dunn & Co.'s drug store.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. "The Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has the badge of HONESTY on every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

WEALTH OF MINNESOTA.

All Classes of Property Valued at Over Three Billions.

Washington, Nov. 24.—According to a late tabulation of the census bureau the wealth of the state of Minnesota aggregated over \$3,000,000,000 in 1904. This is an increase of more than \$800,000,000 over 1900, when the previous compilation was made.

The exact estimate of the true value of all classes of property in the state is \$3,372,276 and in this amount Minnesota ranks ahead of such states as Michigan, Maryland and some of the other older states of the Union.

In 1902 the total value of all property in the state was estimated at \$2,513,620,826, so that it can be seen that there has been a remarkable jump in value, due in large measure to the development of the natural resources, the influx of various industries and the settlement of its agricultural lands.

English Soap Trust Dissolves.

Liverpool, Nov. 24.—The working arrangement entered into Oct. 1 between the leading soap manufacturers of the United Kingdom, popularly known as the "soap trust," was terminated at a meeting here of the representatives of the firms concerned on the ground that the combine had been received with great disfavor by the trade and the public.

AUTOMOBILE ACCIDENT.

Professional Racer Killed in Collision at Philadelphia.

Philadelphia, Nov. 24.—Ernest D. Keeler of New York, demonstrator and professional driver of racing automobiles, was killed and Henry Lutton of Colwyn, Pa., was dangerously hurt in a collision while trying out a car on the Point Breeze racetrack.

Running at a 14 clip Keeler attempted to pass between a machine on the rails and a repair cart driven by a negro who was at work on the track. At the same time a machine driven by James Hamilton, who had with him Henry Lutton as mechanic, attempted to pass through the opening. The car driven by Keeler caught the forward end of the car driven by Hamilton, tearing off the front wheels. Lutton was thrown from his seat into the dirt cart and Keeler's car, after rolling over several times, turned turtle. Keeler was pinned under the car and was killed almost instantly. His skull was fractured, one eye was gouged out, his nose was broken and his collar bone fractured. Lutton had a great hole torn in his head and was hurt internally.

Keeler participated in the elimination event at the Vanderbilt cup races and has contested with Tom Cooper, who was killed this week in New York. He was twenty-six years old.

TO CONTROL CHICAGO

GIGANTIC CORPORATION FORMING TO RULE COMMERCIAL LIFE OF WINDY CITY.

HARRIMAN BACK OF SCHEME

FIRST STEP TAKEN IN GREATEST COMBINE THE WORLD HAS EVER SEEN.

Chicago, Nov. 24.—Plans are being formulated by E. H. Harriman and other Eastern financiers, according to the Chronicle, for the formation of a gigantic corporation which is to control practical the commercial life of Chicago by means of a combination of the subway, transportation, freight, electric lines and power and telephone companies now holding franchises in the city. The first intimation that such a deal was under way came during the day from an authoritative source. The statement was made that the proposed merger of the Illinois Tunnel company and the Chicago Edison company was the first step in the formation of one of the greatest corporations the world has ever seen. It is known that Mr. Harriman wants to gain control of the tunnels in order to use them as a distributing system for freight arriving in Chicago over the many railroads now under his control.

Transmississippi Commercial Congress Adjourns.

Kansas City, Nov. 24.—After electing H. D. Loveland of San Francisco president for the ensuing year, adopting two resolutions by William J. Bryan after they had been voted down by the committee on resolutions and after adopting a set of resolutions including an endorsement of the proposition submitted by Secretary of State Elihu Root "for encouraging our merchant marine and for increasing our intercourse with South America by adequate mail facilities," the Transmississippi Commercial congress adjourned to meet in 1907 at Muskogee, I. T.

REPUBLICAN CLUB DINNER.

Governor-Elect Hughes Guest of Honor in New York.

New York, Nov. 24.—More than 700 Republicans representative of various sections of New York state attended the dinner given to Governor-elect Charles E. Hughes by the Republican club of New York in the Waldorf-Astoria. General Henry F. Tremain, president of the club, introduced State Republican Chairman Timothy L. Woodruff as toastmaster. Governor Higgins could not be present. Senators Platt and Depew were also absent. Letters of regret were read from Secretaries Root and Taft.

ROOT AT CINCINNATI.

Speaks at Annual Dinner of Commercial Club.

Cincinnati, Nov. 24.—Increased commerce with the countries of South America and moral support of Panama canal construction were advocated by Secretary of State Elihu Root in an address at the twenty-sixth annual dinner of the Cincinnati Commercial club. Besides Mr. Root the club had as guests Ignacio Calderon, minister of Bolivia to the United States; Enrique Cortez, minister from Colombia, and Albert Yoacham, charge d'affaires of the Chilean legation at Washington.

NORFOLK AND SOUTHERN.

Two Railways and Lumber Company Merge Under One Head.

Norfolk, Va., Nov. 24.—The Norfolk and Southern Railway company is to be the title of the various Eastern North Carolina and Virginia railway lines with terminals in this city. This was decided during the day when the stockholders of the Norfolk and Southern Railroad company, the Virginia Carolina Coast Railroad company and the John L. Roper Lumber company met here and effected a merger of the three companies.

COLONEL PITCHER DENIES.

Repudiates Statement That He Criticized Negro Troops.

Washington, Nov. 24.—The war department has received a letter from Colonel William H. Pitcher, Twenty-seventh Infantry, dated at Camp Columbia, Cuba, denying that he criticized the negro troops transferred to Fort Sheridan, Ill. An article was recently published in which Colonel Pitcher was made to criticize the troops and by direction of the president he was asked for an explanation.

Calumet, Mich., Nov. 24.—A raise of 10 per cent in wages, effective Jan. 1, has been announced by the Calumet and Hecla Mining company. All employees at the various mines and stamp mills, numbering between 5,000 and 6,000, are benefited.

Found Guilty of Peonage.

Pensacola, Fla., Nov. 24.—The jury in the cases charging W. S. Harlan, C. C. Hilton and S. E. Huggins with conspiracy to commit peonage returned a verdict of guilty. Sentence will be imposed later.

DISCUSS AMERICAN TOPICS.

English Papers Give Much Space to Transatlantic Affairs.

London, Nov. 24.—Perhaps never before in the history of British journalism have American topics and news taken up so much space as at present. Just now the leading subject of discussion in the English press is the selection of a successor to Sir Mortimer Durand as British ambassador at Washington, which is brought in under some form or other in nearly all the comment on imperial affairs. Many of the editorial writers agree with Sir Mortimer that Washington is "the most important diplomatic post in the world."

One of the principal weekly reviews, the Outlook, makes this subject the leading feature of its issue and gives up more than a page to it. The Outlook says the British embassy at Washington has lost completely the political and social ascendancy it enjoyed under Lord Pauncefoot. "The blame for this is not Sir Mortimer's, who commands universal respect, but he was transferred from a sphere which he filled with first distinction to an environment where it was practically impossible for a diplomat of his traditions to become acclimated."

WEEKLY REVIEW OF TRADE.

Holiday Goods Begin to Move Unusually Early.

New York, Nov. 24.—R. G. Dun & Co.'s Weekly Review of Trade says: Weather conditions have retarded trade in seasonal staple lines of merchandise, but holiday goods have begun to move unusually early and in a volume that promises satisfactory results. Wholesale business is maintaining a much better movement than last year and further improvement is noted in collections. From the leading manufacturing plants come reports of full employment of machinery, yet deliveries are much less prompt than desired and inadequate railway facilities receive a large share of the blame. Consumers of iron and steel seek deliveries so constantly that there is little prospect that producers will overtake orders; it seems more probable that they will fall further behind. In structural steel there is a seasonal reduction in new business, augmented to some extent by the high money market that does not encourage speculative erection of apartment houses, which was in danger of being overdone in some cities.

IMMENSE PRAIRIE FIRE.

Over a Million Acres Burned in Texas and New Mexico.

Santa Fe, N. M., Nov. 24.—Reports have reached here that a prairie fire has swept from Western Texas into Eastern New Mexico and that over 1,000,000 acres of grazing and home-land has been burned bare of foliage. No loss of life is reported in New Mexico, but it is believed several persons perished in Texas. It is estimated that on both sides of the boundaries between 50,000 and 100,000 head of cattle have been left without grazing.

IN GERMAN NEW GUINEA.

Earthquakes and Tidal Waves Kill Many Natives.

Victoria, B. C., Nov. 24.—Alarming earthquake shocks in German New Guinea, the Bismarck archipelago, followed by tidal waves, causing much loss of life among the natives, are reported by the steamer Miowera from the South sea. A tidal wave swept the lowlying coast, devastating the country for forty miles. At Chiss island, in Dampier straits, the tidal wave wrought great havoc, hardly a native hut being left.

CHARGED WITH PERJURY.

French Restaurant Keeper Indicted at San Francisco.

San Francisco, Nov. 24.—The grand jury has returned an indictment against Nathan Max Adler, proprietor of a French restaurant, charging him with perjury. A warrant has been issued for Adler's arrest and bail fixed at \$5,000 cash or \$10,000 bonds.

The indictment sets forth that Adler when testifying before the grand jury during the latter's investigation into the alleged extortion practiced on the restaurants denied that on Jan. 2, 1905, he was visited by a committee of restaurant proprietors and asked to contribute to a fund to retain Abraham Ruef as an attorney to go before the board of police commissioners and use his influence in preventing the commissioners from taking away the liquor licenses from the French restaurants.

CRIME OF JEALOUS HUSBAND.

Fatally Wounds Man Hiding in Wife's Apartments.

Cleveland, Nov. 24.—John Young fatally shot Herman Brobst, having found him crouching in a closet in Mrs. Young's apartments. Brobst tried to hide in the closet when Young arrived on the scene unexpectedly. Young shot at his wife, but she escaped injury. Young had been separated from his wife for some time, but, becoming jealous of her in connection with Brobst, went to her apartments and the tragedy resulted.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

TO PRISON FOR LIFE.

Colorado Ranchman and Wife Convicted of Murder.

Wray, Colo., Nov. 24.—Garret Van Wyk, a ranchman, and his wife were found guilty during the day of the murder of Gerret Haast, sister of Mrs. Van Wyk, and were sentenced to life imprisonment. It was charged that her sister and brother-in-law killed her in order to obtain the insurance on her life.

Piles

In order to prove to you that Dr. A. W. Chase's Ointment is a certain and absolute cure for any form of itching, bleeding, or protruding piles, the manufacturers guarantee a cure. You can use it and if not cured get your money back. Mr. Casper Walton, laborer, Michigan City, Ind., says: "I work hard and lift a great deal. The strain brought on an attack of piles. They itched and they protruded and bled. Nothing helped them until I used Dr. A. W. Chase's Ointment. That cured them." 50c. a box at all dealers, or Dr. A. W. CHASE MEDICINE CO., Buffalo, N. Y.

Better Than Spanking.

Spanking does not cure children of bad wetting. If it did there would be few children that would do it. There is a constitutional cause for this. Mrs. M. Summers, box 426, Notre Dame, Ind., will send her home treatment to any mother. She asks no money. Write her today if your children trouble you in this way. Don't blame the child. The chances are it can't help it.
